

Supplemental Material - predictions which detected landslides

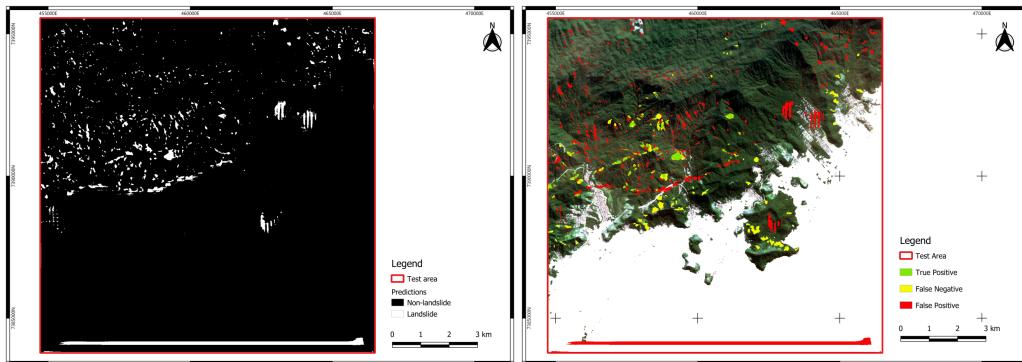

Figure 1. Image of True Positive, False Positive and False Negative samples from the predictitons of Unet with 4 clusters and LD30.

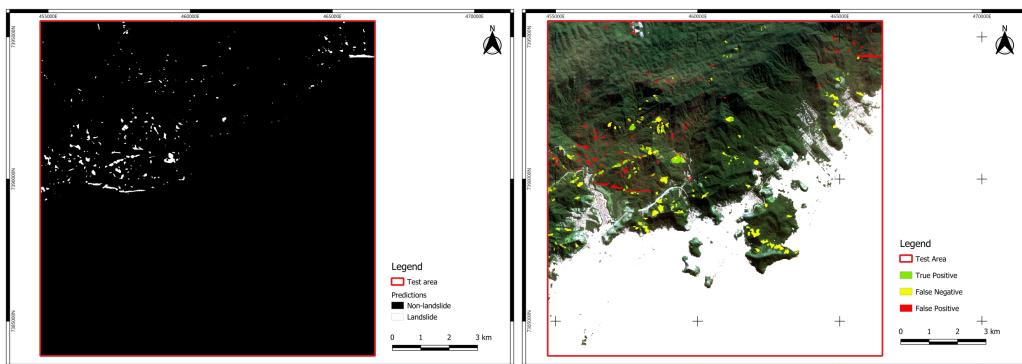

Figure 2. Image of True Positive, False Positive and False Negative samples from the predictitons of Unet with 4 clusters and LD50.

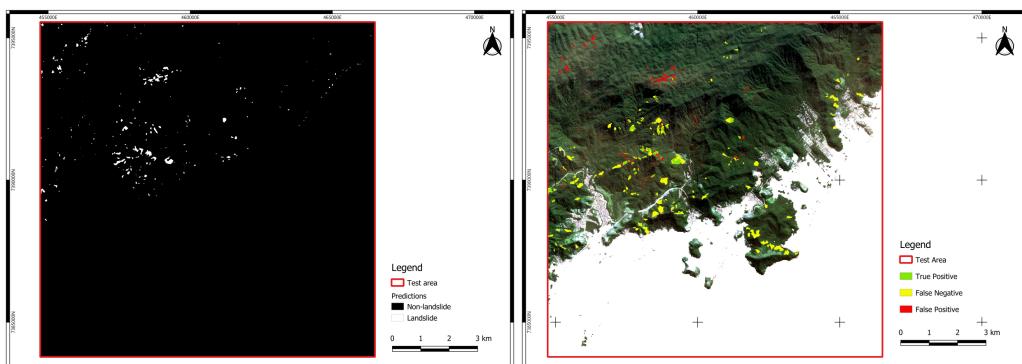

Figure 3. Image of True Positive, False Positive and False Negative samples from the predictitons of Unet with 8 clusters and LD30.

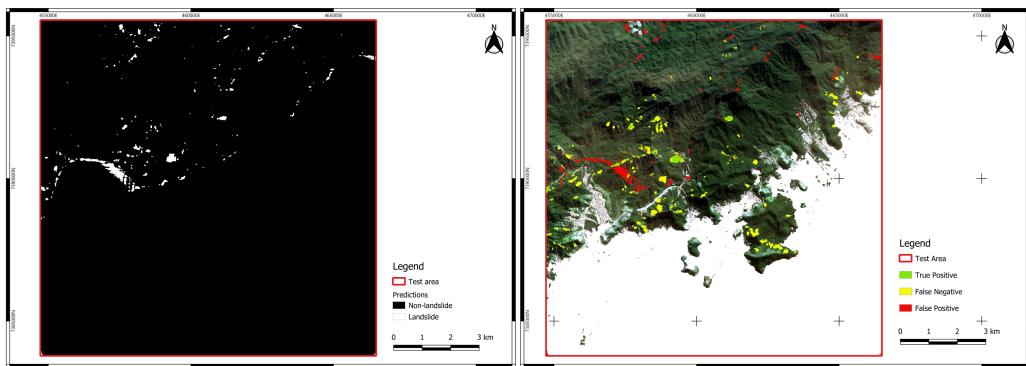

Figure 4. Image of True Positive, False Positive and False Negative samples from the predictitons of Unet with 8 clusters and LD50.

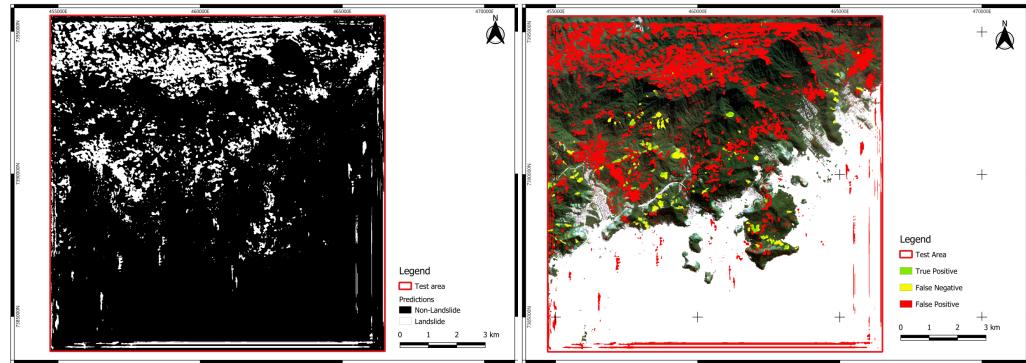

Figure 5. Image of True Positive, False Positive and False Negative samples from the predictitons of standard Unet with LD30.

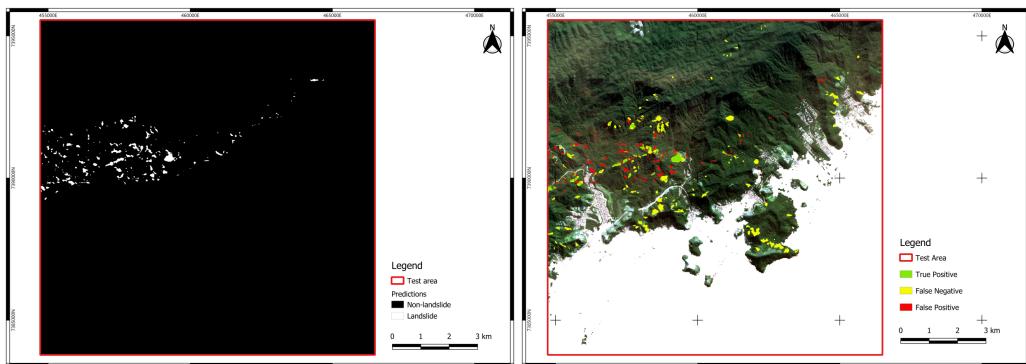

Figure 6. Image of True Positive, False Positive and False Negative samples from the predictitons of Linknet with 4 clusters and LD30.

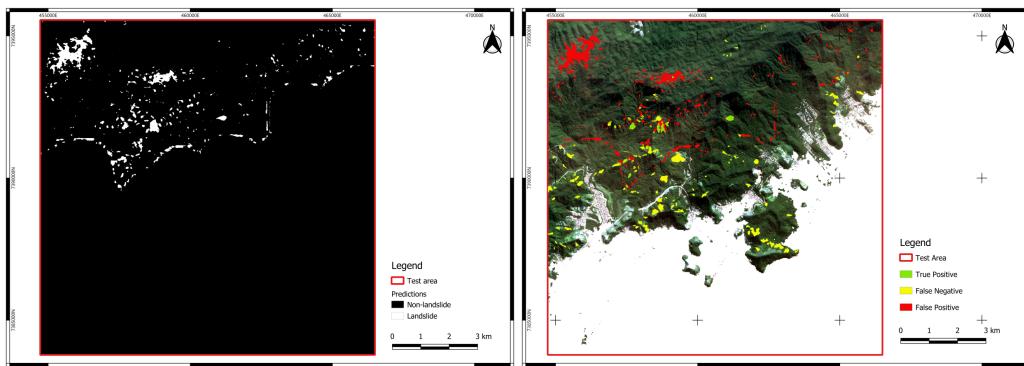

Figure 7. Image of True Positive, False Positive and False Negative samples from the predictions of Linknet with 4 clusters and LD50.

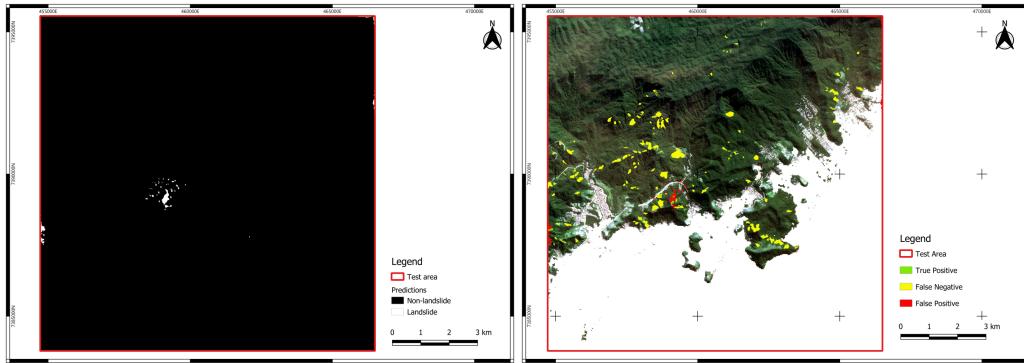

Figure 8. Image of True Positive, False Positive and False Negative samples from the predictions of Linknet with 6 clusters and LD30.

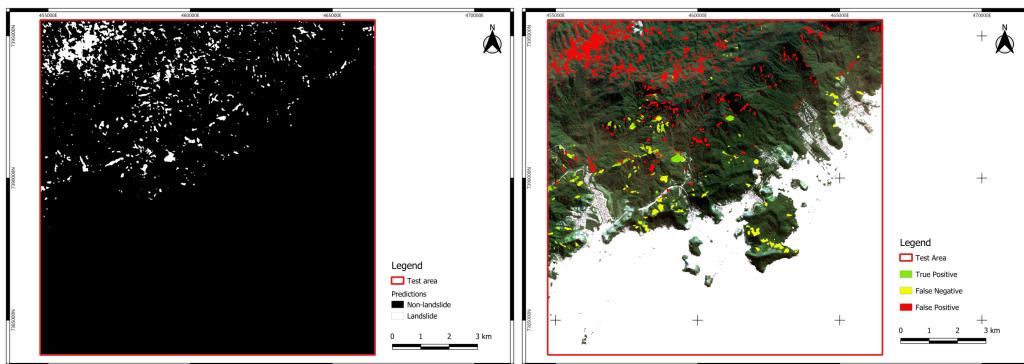

Figure 9. Image of True Positive, False Positive and False Negative samples from the predictions of Linknet with 8 clusters and LD30.

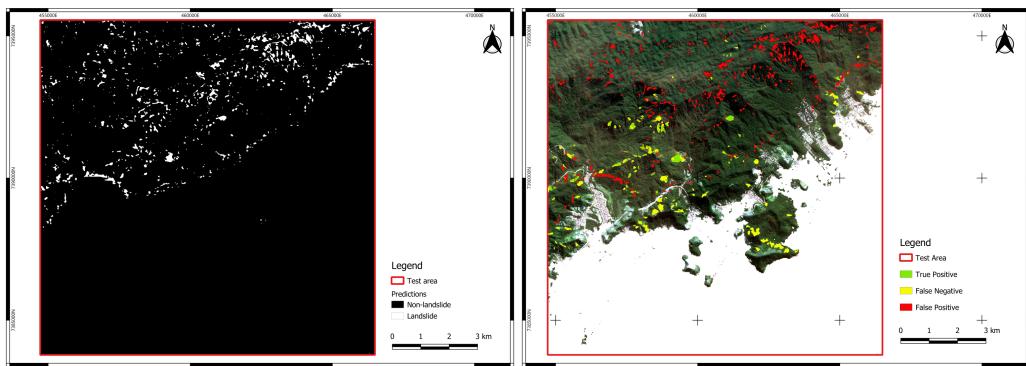

Figure 10. Image of True Positive, False Positive and False Negative samples from the predictions of Linknet with 8 clusters and LD50.

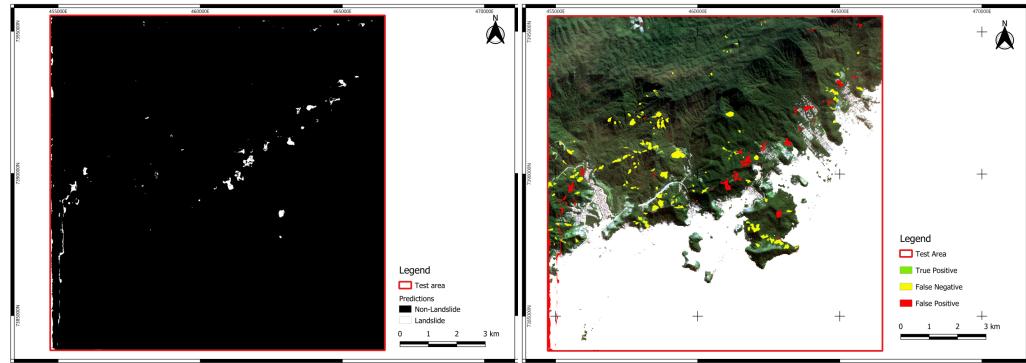

Figure 11. Image of True Positive, False Positive and False Negative samples from the predictions of standard Linknet with LD30.

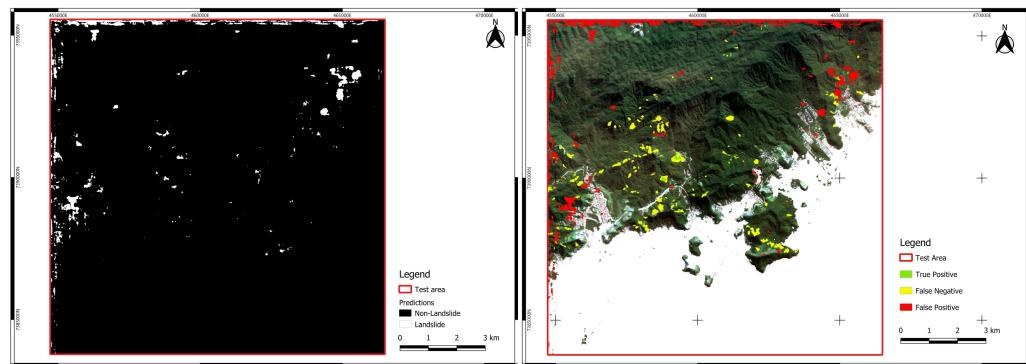

Figure 12. Image of True Positive, False Positive and False Negative samples from the predictions of standard Linknet with LD50.

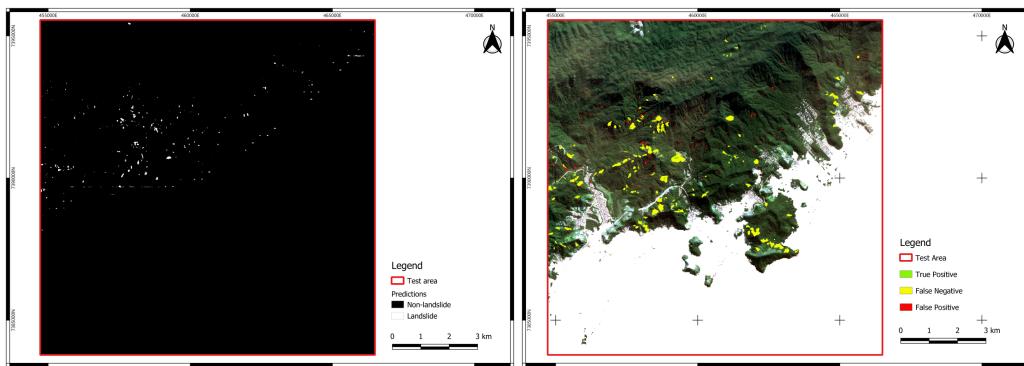

Figure 13. Image of True Positive, False Positive and False Negative samples from the predictions of FPN with 4 clusters and LD30.

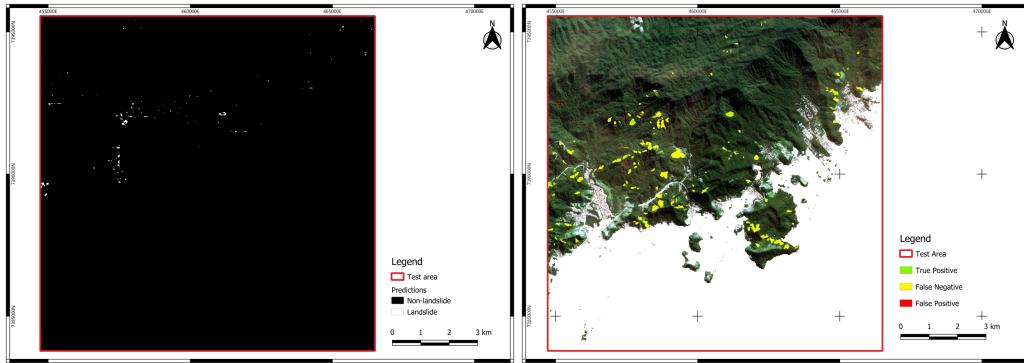

Figure 14. Image of True Positive, False Positive and False Negative samples from the predictions of FPN with 4 clusters and LD50.

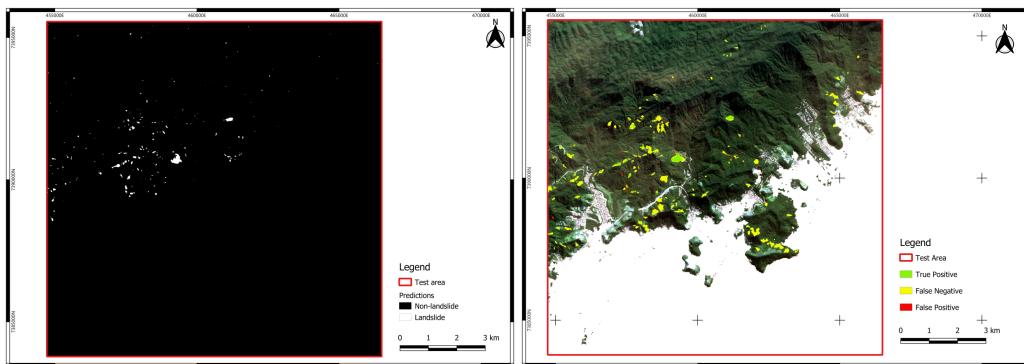

Figure 15. Image of True Positive, False Positive and False Negative samples from the predictions of FPN with 8 clusters and LD30.

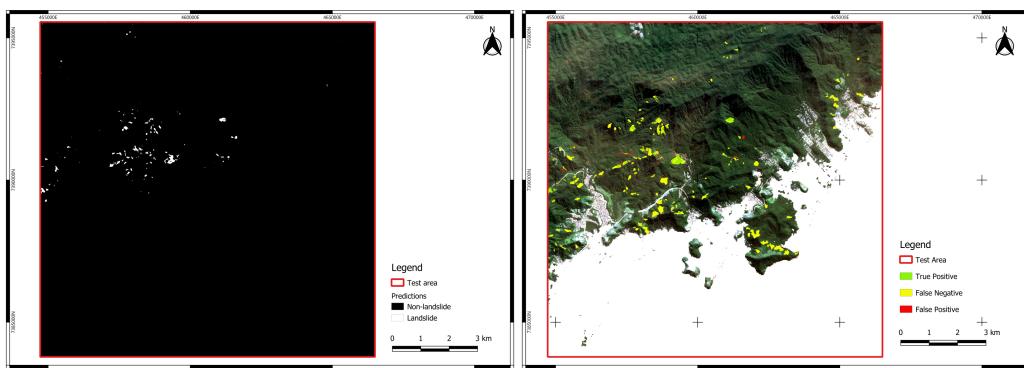

Figure 16. Image of True Positive, False Positive and False Negative samples from the predictions of FPN with 8 clusters and LD50.

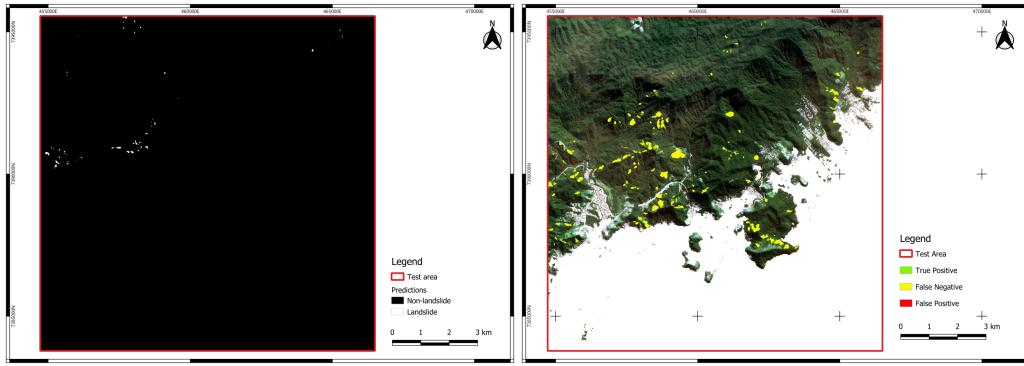

Figure 17. Image of True Positive, False Positive and False Negative samples from the predictions of FPN with 10 clusters and LD30.

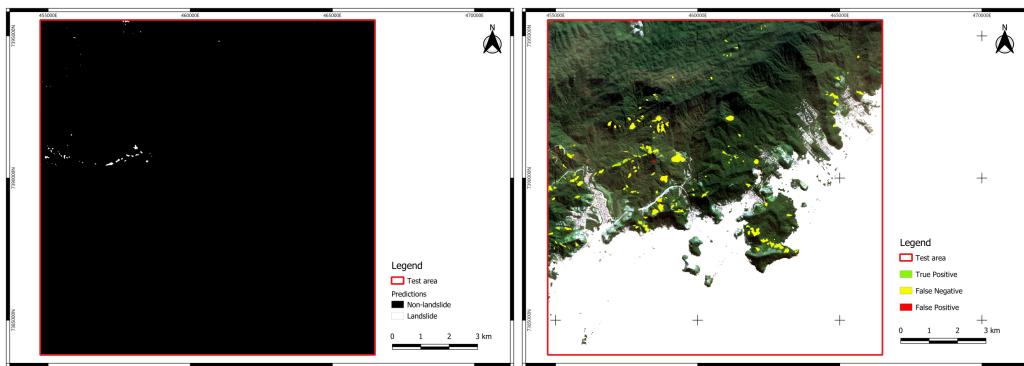

Figure 18. Image of True Positive, False Positive and False Negative samples from the predictions of FPN with 10 clusters and LD50.
